01 ABOUT ME

I am an aspiring Frontend Developer with skills in HTML, CSS, and JavaScript. I enjoy creating responsive and user-friendly websites. I have built projects including an e-commerce website, a weather app, and a personal portfolio. I am eager to apply my skills to real-world projects and grow as a Frontend Developer.

02 CAREER BREAK

Focused on government job preparation and personal development. In 2026, started pursuing Frontend Development through practical projects and skill building.

03 ACADEMIC BACKGROUND

Diploma in Cloud & Mobile Software Enggineering 2 year from NIIT, June 2023(CGPA:7.99/10)

Studied cloud technologies, mobile software development, and software engineering fundamentals.
